JUSTICE FOR ALL

Dear Mr. Harper:

Israel's latest assault on Gaza has been devastating and is facing a "full-blown humanitarian crisis" according to the International Red Cross - in stark contrast to repeated Israeli claims to the contrary and this government's endorsement of that position.

More than 800 Palestinians have been killed dead and over 2000 have been injured. Almost 300 of the dead are children. In recent days, a UN-run elementary school where civilians had been sheltering, Red Cross ambulances, and a UN aid convey have all come under Israeli fire. As a result of the repeated Israeli attacks, John Ging, the head of the U.N. mission has been forced to stop all further aid deliveries in Gaza and stated "we are abandoning 750,000 people. We need the world to do something."

The government of Canada must demand an immediate ceasefire and a restoration of the delivery of humanitarian aid, food, fuel and medicine to the people of Gaza. Any action short of this amounts to complicity in the unconscionable attacks on the innocents of Gaza.
